

**Be the Boss
with BIG DOG Laminate!**

PRODUCT INFORMATION

CONVEX® BIG DOG™ 12 mil overlamine is super pliable for easy applications to complex curves.

Design your helmet decals, motorcycle graphics, and other curved-surface markings with our high-quality CONVEX materials.

By adding CONVEX® BIG DOG™ crystal clear laminate, you ensure your stickers and decals can endure the challenges of motorsports.

This Laminate has a temperature range of -35°F to 212°F.

It is the Big Dog in durability.

Maximize your savings with our **CONVEX® BIG DOG™ Combo Kits**. Laminate the **CONVEX® HIGH-BOND** 6 mil, or CONVEX GearWrap, Motowrap, Plastick, or Pitbull with BIG DOG 12 mil Laminate for a durable, cost-effective solution for all your sports and power sport graphics.

When it comes to decals and graphics that can withstand the harshest conditions, the **CONVEX® BIG DOG™** delivers outstanding performance. Whether racing through desert heat or conquering freezing snowmobile mountain trails, this product guarantees that your designs remain sharp and vibrant. Its high-gloss finish enhances visuals and adds a professional touch, ensuring every decal stands out, even under intense wear and tear.

NOTABLE QUALITIES

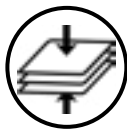

SUPER PLIABLE

Fits smoothly to curved surfaces, making it significantly easy and more convenient for the end user to achieve flawless results.

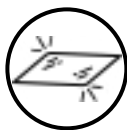

EXPANSIVE TEMPERATURE RANGE

Service Temperature Range: -35°F to 212°F. Engineered to remain intact under extreme cold and heat, ensuring reliable performance in challenging environments.

THICK

This thick, rugged laminate features a 14-mil composition, including 12-mil durable vinyl and 2 mil of pressure-sensitive adhesive (PSA). For best results, pair with other CONVEX® base media.

CLARITY

High-gloss clear laminate keeps graphics looking pristine for years.

Adhesive Properties: Special purpose crystal clear permanent acrylic pressure sensitive laminating adhesive works with highly plasticized vinyl.

Service Temperature Range: (-35°F to 212°F)

Minimum Application Temperature: 25°F

Printer Type	Widths (inches)	Lengths (yards)	Thicknesses	Colors
Gerber	13	5, 10, 25, 50	12 mil	Clear
Wide Format	20	5, 10, 25, 50	12 mil	Clear
Wide Format	30	5, 10, 25, 50	12 mil	Clear
Wide Format	48	5, 10, 25, 50	12 mil	Clear
Wide Format	54	5, 10, 25, 50	12 mil	Clear

RECOMMENDED LAMINATION TECHNIQUES:

When using a cold laminator, carefully adjust the roller tension to ensure smooth application and prevent the material from curling.

CUTTER SETTINGS:

Please perform test cuts to determine the best cutter settings for the finished base materials and laminate constructions. May need to use double or triple cuts depending on the age of your blade.

Use a 60° blade or 45° blade on any combination of material 8 mil or thicker
