# ***FastFinish***

## Stripper | Rewinder

**Strips and rewinds,  
saving you time  
and money**

When customers ask you for narrow rolls of media, it can be difficult to produce them efficiently and cost-effectively. Unless, of course, you have the **GMS FastFinish Stripper/Rewinder** to do the bulk of the finishing work!

The automated, roll-fed machine strips your media and rolls it neatly onto narrow cores at a brisk clip. You control the torque and rewind speed.

Using FastFinish to weed 10 to 50 yard rolls of continuous media saves you significant production time, labor costs, and work space. No more having to strip reams of individual sheets manually and take up valuable real estate to stack them.

Accommodates rolls up to 15" wide.

### **PRODUCING ROLLS IN A VARIETY OF SIZES HELPS:**

- **FUEL REPEAT BUSINESS**
- **INCREASE VOLUMES**
- **INCREASE PROFITS**

**Innovative  
SOLUTIONS  
for Adhesive  
Graphics Production**
