How to find your Omega serial number and system ID.

Here's how you find them:

1) If you have a system tray icon 🎨 / 🎨 in the lower right side of your screen, right click on it and go to “System Identification String.” Skip to step 3.

2) If you don’t have a system tray icon, Go to Start, All Programs, Gerber Omega, scroll down until you see one of these icons: 🎨 🎨 🎨 🎨 🎨 🎨. Then the icon (colored “G”) will appear at the bottom right of your screen. Once it appears, right click on it and go to “System Identification String.” Continue to step 3.

3) Copy the number at the top of dialog box called “System ID.” And copy the “Serial number.” The Highlighted areas show the current version you have. Then just paste the two numbers into an e-mail, referencing your order, and send it to us. If you are using our ShopGMS.com shopping cart, paste the two numbers into the “Instructions for GMS” field upon check out. Thank you for your business!
