GERBER AFTERMARKET PRODUCT GUIDE

LIFE IS A GIANT CANVAS LIVE YOURS IN COLOR

IT ALL STARTS RIGHT HERE THE OPTIONS ARE ENDLESS

Use the selector guide "*A World of Color*" for print and cut materials and GerberColor™ thermal transfer foils to help you make the right choices.

If you have any questions or need help finding the best products for you, call us at 800.232.8018 or email info@graphicms.com.

GREAT RATES available online at www.shopGMS.com!
We ship SAME DAY on URGENT ORDERS placed by 5 p.m. CT.

EDGE READY™ products are compatible with Gerber EDGE FX thermal printers

Why buy Gerber materials from Graphic Marking Systems?

We actually stock it so you get it fast – when you need it!

Many distributors offer Gerber foils and films, but they don't stock their shelves with them, resulting in longer wait times due to dropshipping. At **Graphic Marking Systems**, we always have ample inventory in our Illinois warehouse. Being located in the Midwest region of the United States enables us to ship goods quickly in any direction, usually the same day they're ordered. Start shopping today at www.shopGMS.com!

We are your Gerber System Specialists!

As an owner of Gerber equipment, you have experienced how reliable and profitable these sprocket-fed machines are for your business. However, if you encounter a complex issue with your equipment, our **Gerber System Specialists** are ready to identify and solve the problem with technological support or instructional assistance. If needed, we can provide a complete overhaul for your system and bring your equipment back to top form. Call **Graphic Marking Systems** at **800.232.8018** or email our service center at gerbertechservice@graphicms.com to consult and schedule service for any of your GERBER EDGE®/FX® printers, sprocket plotters, OMEGA software, and other equipment.

Need help estimating jobs for your GERBER system?

Know what to charge without question with E\$TIMATOR!

This web-based program calculates your time and material costs, and takes the guess work out of scheduling. Get the most accurate pricing for your GERBER EDGE® print jobs today at www.estimatefortheedge.com.

GerberColor Transparent Foils

Custom-formulated, resin-based, transparent color foils will provide three-year exterior life performance. The unique transparent feature allows the characteristics of the base EDGE READY material to come through. GCT foils should be double-hit for best backlit results. Use with GerberColor Spectratone to produce additional colors. Warranted as specified when used on Gerber approved EDGE READY materials.

GerberColor SpectraTint™ and SpectraShade™ Foils

GerberColor Spectra foils are designed for overprinting to modify the appearance of base color foils. Use these foils to produce a wider range of EDGE-printed spot colors, to better match hard-to-hit corporate identity program colors or to create special shading effects on shapes and large text. All effects are achieved with solid fill printing. **SpectraTint** has been designed to lighten the appearance of the base color, while **SpectraShade** will darken it. Both foils have been formulated for outdoor use for up to three years. Spectra foils can triple the range of spot colors that are printable with a shop's current inventory of foils.

GerberColor Finishing Foils

Abrasion Guard™ SPF is designed for graphics likely to experience repeated handling or frequent contact. This clear overprint GerberColor foil makes GERBER EDGE-produced graphics considerably more resistant to abrasion, **plus it adds up to 30% longer UV protection to any EDGE output!**

Gerber 225 High Performance Film manufactured by 3M

Gerber 225 is a high performance 2 mil cast vinyl film on a transparent synthetic liner which is moisture-resistant and offers superior registration for multicolor plotter applications and Gerber EDGE printed graphics. The clear pressure-sensitive adhesive allows for production of attractive two-way markings. Excellent durability with five- to eight-year exterior life.

Gerber PermaGrip Film

PermaGrip	15" Punched EDGE READY	
Color	10 Yard	50 Yard
	\$108.24	\$445.67
White	AP75517 -10y	AP75517 -50y

Gerber PermaGrip is a durable, permanent cast vinyl film for use with Gerber EDGE Systems and GerberColor foils. It is dimensionally stable and has an extremely aggressive pigmented adhesive system that provides superior hiding power when applied over colored surfaces. Gerber PermaGrip is edge-stripped to eliminate buildup of adhesive

residue on sprocketed equipment. Gerber PermaGrip is ideally suited for a wide variety of commercial, industrial and safety applications. It can be used to create interior and exterior labels, emblems, logos and signs on many surfaces including, flat, moderately compound curved and moderately-rough surfaces and some low surface energy materials. The user should determine the suitability of all substrates prior to actual application. This film is not recommended for use on corrugated, riveted or highly irregular surfaces. It is not recommended for flexible sign face or flexible banner material. It is also not intended for applications where petrochemical contact may occur. If petrochemical exposure is anticipated, refer to the Product Bulletin for information on protecting graphics.

Gerber GerberMask™ ULTRA – Masking Material

GerberMask ULTRA is a 4 mil white vinyl film, coated with a **low-tack** removable adhesive now on a **new moisture-resistant liner**. Designed to be used as stencil masking film for application to a variety of smooth, flat substrates. The low-tack adhesive allows easy removal from substrates, with no adhesive transfer. Suitable for use on glass, Plexiglas, polycarbonate, flexible vinyl, stainless steel. **NOTE:** GerberMask ULTRA has a low-tack adhesive for easy removal from high energy surfaces. Rough, uneven, or curved surfaces may require a more aggressive adhesive. GerberMask ULTRA II stencil mask with high-tack adhesive is available if greater substrate adhesion is required.

Gerber GerberMask ULTRA II – Masking Material

GerberMask ULTRA II is a durable, conformable 4 mil white vinyl film, coated with **aggressive** acrylic removable adhesive now on a **new moisture-resistant liner**. Designed to hold during light sandblasting, acid etching, or paint applications. Removable, with no adhesive transfer. Suitable for use on glass, Plexiglas, stainless steel, unfinished and finished wood surfaces. **DO NOT APPLY GerberMask ULTRA II TO FLEXIBLE VINYL FILM.**

NOTE: GerberMask ULTRA II has a high-tack adhesive that will adhere strongly to smooth, high-energy substrates, such as Plexiglas or polycarbonate. Requires some effort to remove. GerberMask ULTRA, with low-tack adhesive, may be more suitable for this type of application. GerberMask ULTRA can be used on flexible vinyl substrates.

Gerber Routing Bits

Gerber Platinum Specialty Bits

Gerber Platinum Specialty bits take the guesswork out of choosing the correct bit for a specific substrate. Gerber Platinum bit descriptions include an application code which identifies materials and applications for which the bit is most suited. The application code is etched into the shank of the bit, along with the part number, for easy identification once the bit has been removed from its sleeve. [Routing and Engraving Bits Catalog](#)

Application Reference Chart for Gerber Platinum bits		
AW	Aluminum & Wood	1-Flute Upcut O Flute for Alucobond®, Diond®, Dilite®, Hardwood, Softwood, Non-Ferrous Metals (Aluminum, Brass, Copper)
GP	General Purpose	1-Flute Upcut Super O Flute for Hard and Soft Plastic, Hard and Soft Woods, Wood and Plastic Composites.
HPF	Hard Plastic & Foam	1-Flute Upcut O Flute for Solid Surface (Avonite™, Corian®), Cast Acrylic
SPF	Soft Plastic & Foam	1-Flute Upcut O Flute for PVC Foam (Celtec®, Trovicel®, Sintra®, Kometex®), HDU (Signfoam®, Precision Board™), Extruded Acrylic, Styrene, Polycarbonate (Lexan), HDPE (Polycarve™)
LV	Laminates and Veneers	Produces clean top and bottom edges on single and double-sided laminated substrates. For Hardwood, Softwood, Wood Composites (MDO, MDF, Plywood, Particle board) See footnotes for more information.
APS	All Purpose Straight	1-Flute Straight for Substrates with thin laminates, foam boards (clay coated paper and styrene surfaces; Fome-Cor®, Gatorfoam®, Gatorplast®)
F	Foams (Special Long)	2-Flute Upcut Specially designed for thick foams and soft plastics from 1-1/4" to 2-1/4". HDU (Precision Board™, Signfoam®)
APC	All Purpose Cleanout	2-Flute Upcut Bottom Surfacing Produces a clean bottom finish with a .002" radius inside bottom edge. HDPE (Polycarve™), Aluminum, Woods, Solid Surface
FT	Folding Tool	2-Flute Straight V Flute V Bottom Carbide tipped specialty bit designed for folding Alucobond®, Diond®, Dilite® up to 90-degrees.
3DM	3D Modeling	2-Flute Upcut Ballnose for three-dimensional modeling. Advanced grind technology produces a superior cut in plastics, woods composites and aluminum.

Gerber Routing Bits – continued

Gerber Gold™ Routing Bits

Gerber Gold routing bits are designed for greater performance and longer tool life. These remarkable routing bits are made from the highest quality micrograin carbide to the tightest tolerances in the industry. They are then coated with titanium nitride to enhance their durability even further. The result is superior edge quality and lower tooling cost. These high performance bits can be used with all Gerber routers/engravers, as well as with other automated and manual routers.

Two-Flute Spiral Bits

These are the most versatile type of bits and are used for general routing of the following materials:

- Harder Materials: Such as plate aluminum, brass, bronze, copper; cast acrylics, solid surface materials, particle board, plywood, and hardwoods.
- Softer Materials: Such as foam boards, engraving stock, PVC (Sintra®, Komatex, Trovicel®, Celtec, etc.) soft plastics, soft woods, and similar density materials.

These bits provide excellent chip removal from the cut because of the upward spiral action. They also assure excellent edge quality on these materials.

Shank Diameter	Cutting Diameter	Cutting Edge Length	Overall Length	Part Number	Price
1/8"	1/16"	3/16"	1-1/2"	P50521B	\$17.79
1/8"	1/8"	1/4"	1-1/2"	P50525B	\$17.79
1/8"	1/8"	1/2"	1-1/2"	P50522B	\$21.90
1/4"	3/16"	3/8"	2"	P50526B	\$41.07
1/4"	3/16"	5/8"	2"	P50523B	\$37.65
1/4"	3/16"	1-1/8"	3"	P50528B	\$47.92
1/4"	1/4"	1/2"	2"	P50527B	\$31.47
1/4"	1/4"	3/4"	2-1/2"	P50524B	\$34.23
1/4"	1/4"	1-1/2"	3"	P50529B	\$54.77
1/4"	1/4"	2-1/4"	3-3/4"	P50530B	\$75.30
1/8"	1/8"	1-1/4"	3"	P52819B	\$45.87

Single-Flute Radial Bits

These bits are ideal for cutting sheet aluminum and brass with a thickness of .060" (1.5mm) and less, as well as soft woods and soft alloy aluminum. Unlike the spiral flute bits, these bits have a single straight cutting edge which doesn't pull up on the work piece. This straight flute allows the bit to "shear" the chip off at the top edge of the material being cut without leaving a burr. The chip extraction, however, will not be as good as with a spiral bit.

Shank Diameter	Cutting Diameter	Cutting Edge Length	Overall Length	Part Number	Price
1/4"	3/16"	5/8"	2"	P50533B	\$42.96
1/4"	1/4"	3/4"	2-1/2"	P50534B	\$44.62
1/4"	1/4"	1-1/2"	3-1/2"	P50535B	\$64.44

Three-Flute Spiral Tapered Bits

For use on all materials listed for two-flute spiral bits. Tapered bits produce an angle on the edge of the material being cut. As a result, these bits are excellent for cutting vacuum form molds. These bits can also be used to create a "halo" effect without incurring additional cost when other than a straight edge is desired for special applications,

Shank Diameter	Cutting Diameter	Cutting Edge Length	Overall Length	Angle	Part Number	Price
1/4"	1/8"	1"	2-1/4"	7°	P50643B	\$60.24
1/4"	1/8"	1/2"	1-7/8"	3°	P50531B	\$65.76

Gerber Routing Bits – continued

Auto-Carve™ 3D Carving Bits

Gerber V-cutting carbide bits deliver superb cut quality, maximum cutting efficiency, and the longest possible tool life. These specifically designed tools are produced within extremely tight manufacturing tolerances, ensuring the level of accuracy essential to the automated carving process.

Design considerations that impact tool selection:

For Small, Intricate Graphics with Thin Stroke Widths: Choose a tool with a steep angle, such as the 90° tool.

For Large Graphics with Wide Stroke Widths: Choose a tool with a shallower angle, such as the 150° tool.

Shank Diameter	Tool Diameter	Tool Degree	Part Number	Price
1/4"	1 1/4"	90°	P56371A	\$123.81
1/4"	1 1/4"	120°	P56374A	\$151.34
1/4"	1 1/4"	130°	P56375A	\$116.94
1/4"	1 1/4"	140°	P56376A	\$116.94
1/4"	1 1/4"	150°	P56377A	\$123.81

Gerber Engraving Bits

Gerber also offers high quality, long and short type industry standard engraving bits. Designed to give excellent results with Gerber equipment, they also work with other routers/engravers. Gerber engraving bits are ideal for applications using Dimension Plus®, ROWMARK®, acrylic, polycarbonate, and other plastic materials.

Engraving Bits (Long Type)

These bits are for top-loading engraving spindles. Use with Gerber Engraver Options.

Shank Diameter	Cutting Diameter	Part Number	Price
1/4"	.010"	P47767A	\$41.55
1/4"	.060"	P47775A	\$41.55

Engraving Bits (Short Type)

These bits are for bottom-loading collet systems. Use with Router Motor or High Frequency Spindle Option.

Shank Diameter	Cutting Diameter	Part Number	Price
1/4"	.010"	P50536A	\$31.33
1/4"	.020"	P50537A	\$31.33

Other Gerber Specialty Bits

Braille / Tactile Bits

These bits are used to create ADA (Americans with Disabilities Act) compliant signs. All have shank diameters of 1/4" (6.0mm).

- The Long Type for use with Dimension 200®, ADVANTAGE Router™ 600 and Sabre™ Engraver Options.
- The Short Type has the same tip geometry as the Long Type, but is cut shorter for use in a Router Motor or High Frequency Spindle Option.

Gerber enVision™ Plotters

The enVision series 375 15" tabletop sprocket-feed plotter is designed for the rigors of everyday use while offering the ultimate in speed, reliability and durability. The enVision 375 runs on Gerber OMEGA software, as well as most popular design software platforms supporting HP-GL. With ultra-precise tracking and simple material loading Gerber's enVision plotter is the fastest sprocket-feed plotter on the market. Includes accessory kit, knife tool holder and blade, and material roll holder.

Product	Part Number	List Price
Gerber enVision 375 - 15" drag knife plotter	P66141A	\$11,795

- Add OMEGA CS to your EnVision Plotter purchase for only \$995

Gerber Material Management Systems for EDGE FX and enVision 375

Gerber Material Management Systems facilitate clean, wrinkle-free and unattended operation by controlling the feeding and take up of substrates during printing and cutting, improving workflow and reducing work space requirements.

Description	Part Number	List Price
Gerber EDGE FX Material Management System	P84937A	\$3,774.77
Gerber enVision 375 Material Management System	P84938A	\$7,493.77

Gerber GS^{plus} Plotters

The GS^{plus} series is Gerber's family of highly accurate stepper motor sprocket plotters that use 15" (GS 15™ and GSx™) perforated materials. These open-architecture workhorses feature KMS – Knife Mode Switching™ Technology, for optimal cutting of all Gerber materials, as well as many others. GS plotters are simple to learn and operate, and define the term "unattended-operation". Includes accessory kit, knife tool holder and blade, pen, and material roll holder.

Product	Part Number	List Price
GS15 ^{plus} ™ – 15" drag/tangential plotter	P55225A	\$7,395
GSx ^{plus} ™ – entry level 15" drag knife plotter	P55161A	\$6,395

- Add OMEGA CS to your GS Plotter purchase for only \$995

Gerber **OMEGA 8.0** Software

Gerber OMEGA software is a complete suite of layout, design, output and conversion tools for use to create professional graphics such as signs, labels and decals, display graphics, and much more. OMEGA design and output tools are fine-tuned to accommodate vinyl cutting, printing and routing on sign-industry production devices such as Gerber vinyl cutters, the GERBER EDGE® family of thermal printers, as well as Gerber routers and flatbed cutters.
